Never finished high school?

Now you can get a diploma without going back

You already know why it's important to have a high school education. You've probably learned the hard way that it can be pretty difficult to get the kind of job you want without one. No matter how hard you're willing to work.

What can you do about it?

Maybe you've thought of trying again to get a diploma. But you've suffered enough classroom "battle fatigue" to last you a lifetime. So you'd hate to travel that route again even if you could.

But what if we told you that there was now a much better way to get a high school education? An adult way, which gives you regular high school subjects and your choice of practical vocational subjects which help you get started in one of a number of profitable fields.

That's the unique Wayne School way. You do your reading and assignments in your spare time, in the relaxed atmosphere of your own home, and "turn in" your completed assignments by mail. You don't have to give up your present job. You don't have to study or travel to class at inconvenient times.

And you needn't be afraid of dropping out all over again, if you had trouble with school before. Wayne's specially prepared lessons make even difficult subjects much easier to take. And Wayne grades your assignments in private, by mail. You're free from competitive classroom pressures. You stay relaxed, and your progress is much smoother.

If you're 17 or over and not now in school, why not send for more information? Mail coupon for our free booklet, *"How to finish High School at home."* You're in for a pleasant surprise.

Dear Archie,

I would like to tell you about a very bad disease called cancer. There are many different kinds of cancer such as lung cancer, skin cancer, etc. Its cure is not yet known.

Every summer my friends and I have a carnival. We have a spook house, a fun house, games for prizes, pony rides, lawn mower rides and a raffle. We give this money to Cancer Care which is an organization that helps people who have cancer victims in their family.

I hope that everyone will try and work towards finding a cure for cancer!

Dear Archie,

During the summer, I work at a nursing home. It's a lot of fun and I enjoy doing it.

Some of the things I do and like most are reading and writing letters, watering plants, taking the people for wheelchair rides and just having conversations with some of the greatest people ever! The part I enjoy most is just doing something for people who can't help themselves.

I have found it to be a great and fulfilling experience, as well as a great way to meet people.

Dear Archie,

I have gotten a good look at the pollution problem. It used to be that you could go driving or boating and have clean roads and water. Now you go boating or riding and can't find your way through papers, cans and other trash. Also, you used to be able to breathe clean air. Soon we'll have to wear gas masks!

I think that if America wanted to do anything about it, we would have cleared these problems up by now!

REPORTER

Dear Archie,

Just thought I'd drop you a line to tell you about a class party we had at school last week. It was a gas!

We all got together and pitched in to make it the greatest party in the history of our school! After a few weeks of preparation, we dressed up as Archie comic book characters. I played Betty, Archibald (of course) played Archie and so on until all the Archie characters had been portrayed. Then, we brought in all the Archie records and comic books we could possibly find. The party was a smash! Why don't you try it?

P.S. Make sure you have plenty of hamburgers for Jughead!

Dear Archie,

Every day or month, teen-agers drop out of school for different reasons. But can we help them stay in school? Now, listen! There are many students dropping out of school every day. If there is a way to help them, we'd better do something fast! These are the men and women of tomorrow and America is not going to go very far without these people if they don't go to school and get a good education.

What does it really take to move up in the world—to enjoy life more, make gods meet a little better, gain status better things for the wife and kids and yourself?

It takes three things in particular:

1. an interest in doing better
2. more specialized know-how than the next guy
3. some confidence in yourself and what you know.

ICS has been in the business of helping people with the second two nearly for 80 years—all you do is just supply the first point—interest.

BUT WHY LEARN AT HOME?

There are many good reasons for learning a new or better job skill from ICS, right in your own home. Here are some of them:

Low cost. An ICS course usually costs you about the same as a carton of cigarettes a week. And you save the usual parking and traveling and incidental costs of school. What better way do you know to invest a few dollars a week—than in yourself? (And veterans can get their tuition refunded.)

Tested, successful teaching methods—ICS has the home study teaching method that works. Solid, easy-to-follow texts that put all the benefit of individual personnel help from experienced instructors. At ICS you're in a "class of one."

266 ways to do better—you get the widest choice of what you want to learn, to better yourself. ICS has 266 brighter future programs, anything you want to know from business administration to carpentry, automotive to machine shop. You can find the one that fits your interest and ambition.

The ICS diploma—when you graduate, you get the diploma that really means something in the business world, the one from ICS.
